

No Profiteering HERE!

Look for much higher prices on Dry Goods and Notions this spring and summer.

Take gingham for example: The wholesale price has advanced 13 1-2 cents a yard. We have advanced our price 10 cents a yard. We make less though we have to pay more. When ever we buy cheaper we give you the benefit of it.

Ever since the present situation began, we have adhered to our practice of marking our goods at the lowest prices that will afford us a living profit. In fact, we are making a lower rate of profit than we ever did before. The record of our last year's business proves that.

We hate to advance prices. It interferes with the success of our business and it is a hardship for our friends, our customers.

You can count on us to help scotch the profiteering snake whenever it shows its head.

You can count on us to give you the lowest prices we possibly can, all along the line.

The close margin of profit forces us to get the marked price for our goods. No cutting of prices. Will sell to all just alike. This has been our policy for the last year.

Last year we saved our customers several hundred dollars by buying our goods in large quantities before advances and holding the prices down to the closest point. We will do the same again this year.

We are under government control as to buying and selling groceries. Our license number is G 40479.

We would suggest that you anticipate your wants in dry goods the best you can and buy your needs as early as possible, as prices will be much higher later in the season, when we have to rebuy many articles. That is the advice of the wholesaler to us. The same applies to you.

YOUR INCOME TAX.

Better See C. G. Black, Revenue Agent, and Avoid Trouble.

C. G. Black, Deputy Collector, who has been detailed to assist the Income tax payers of Cumberland county, in making reports to the government for income taxes, for the year 1917, appeared before the County Court on last Monday and discussed at considerable length, for the information and benefit of the people, the provisions and application of the Income Tax Law.

The penalties for failure to comply with the provisions of this law, or making a false or fraudulent return thereunder, subject the citizen to very drastic penalties, and it is to be hoped that none of our citizens will fail to closely calculate his income for the year 1917 and if anything is due the government as tax thereon, to promptly pay same.

The government is preparing to set in motion such machinery as will give a close investigation, leading to the discovery and prosecution of all persons who fail to comply with the law.

Mr. Black will be at the court house until and including the 25th, in order to assist any and all persons to make report, or to give information desired by any as to the application and operation of the Income Tax Law. All persons, whether tax payers or not, who desire information or assistance on the subject of income taxes, are invited to call on him.

Many people in Crossville do not know that they are indebted to T. M. Rector for the Main Street sidewalks being in a passable condition Sunday morning after the deep snow Saturday night, but that is the case. That work, coupled with what Marshall John Warner did, made it very much easier for the people to reach Sunday school and church than would have been the case without that work.
